

Barwatch

The Barwatch is a private group that is run by the venues for the venues. The meetings allow all the management to come together to discuss good practice, problems that may be arising and ask questions to the Police, Council etc.

The Barwatch also meet when an incident occurs in one of the venues, and can then take appropriate action, for example to ban an individual involved for a length of time proportionate to an incident. Once an individual has been taken to Barwatch they are then banned from all venues in CMK for the given time period. The name of the person is given to all venues and a photo if the person has any convictions on their record.
